

Health and Wellness form for Albuquerque Nursery School

The Health and Wellness of all of our children enrolled is important to us at Albuquerque Nursery School. Yearly screenings in the areas of physical examinations, immunizations, hearing, dental, and vision are essential to maintaining healthy development of your child. These screenings will also allow for early detection of needed support. Please list below the last date of the following screenings that have occurred for your child.

Date of Physical Development Screening : _____

A yearly well child visit with your child's medical professional will not only check for health related issues and proper development, but will also ensure that your child's immunizations are up to date. Listed below are age appropriate clinics if your child has not received a well child visit due to lack of resources.

*UNM Pediatrics Clinic: (505) 272-5551

*Presbyterian: www.phs.org

*Lovelace: (505) 727-8000

www.lovelace.com

Date of Vision Screening: _____

Vision screenings are needed to ensure that any vision problems are detected and corrected. This is important because proper vision can affect a child's ability to learn.

Date of Dental Screening: _____

Dental issues can hinder a child's health and well-being. Children with poor dental health may have troubles later in communication and social interactions.

Date of Hearing Screening: _____

When services are provided early on for hearing loss in children, there is the possibility for a child to reach their full potential in their development of speech, language, and social skills. Albuquerque Speech Language Hearing Center will provide free hearing and speech language screenings at their location. Contact information to schedule your child for a hearing and speech language screening is:

Albuquerque Speech Language Hearing Center

9500 Montgomery Blvd. NE, Ste 215

Albuquerque, NM 87111

Phone: (505) 431-4212, email: inquires@aslhc.org
